Chris Dorward

Fullstack JavaScript Developer

+44 07745763122

goldlabel.apps@gmail.com | Linkedin | GitHub | Facebook | X

Two decades of experience over every era of web development from dial-up to modern AI-driven Next.js apps. Deep experience in React, Node and TypeScript, with a focus on scalable architecture, sharp performance, and code that remains tidy and dependable

Recent work includes building ring-fenced AI systems, running local models, and shaping secure, practical workflows for real products. AI is treated as a sensible accelerator rather than a shortcut, improving delivery speed and overall quality

Skills

JavaScript

TypeScript
Vanilla JS (ES6+)
Testing
React
Node
NextJS (SSR & SSG)
Vercel

Design

Figma
Adobe
CSS
Material UI

Fullstack

DevOps
CI/CD
Databases
RESTful APIs
Git
Blockchain
GraphQL
Docker & Kubernetes

Experience

Hertwig & Auer (2025)
DTrackt! (2024)
Boral (2018)
Aligent (2016)
Huawei (2015)
